Standard	IEC 60335-2-05:2012+A1 :2018 EN 60335-2-05:2015+A1 :2020+A11 :2019		Date 2023-04-18
Question	Are door interlock switches short-circuited ?		
Decision	Door interlock switches are not short-circuited.		
Explanatory notes	Opening and short-circuiting of components applies to all controls in all circuits, but does not apply to door interlock switches.(identical requirement in IEC / EN 60335-2-7: §19.101 last item note) Interlocks are covered under §24.1.4 IEC / EN 60335-2-5
